Invoice discrepancy report

Invoice Audit Agent · run 0ec7095f · claude-opus-5-5 · generated 2026-10-12 22:55 UTC

$700.00 overbilled — 2 discrepancies found

Audit status: FLAGGED

Purchase order	PO-2026-1042
Invoice	INV-2026-2087
Supplier	Acme Technology Solutions
Purchase order total	$8,500.00
Invoice total	$9,200.00
Difference	$700.00

Source documents

• Purchase order: PO-2026-1042
• Supplier invoice: INV-2026-2087

Discrepancies

#	Item / field	Expected (PO)	Actual (invoice)	Impact
1	Enterprise SSD Storage — Unit price	$850.00	$920.00	$700.00
2	Document total — Total	$8,500.00	$9,200.00	$700.00

Expected values come from the purchase order; actual values from the supplier invoice.

Recommended action

Hold payment of INV-2026-2087. Request a corrected invoice from Acme Technology Solutions or a written amendment to PO-2026-1042 before releasing funds.

Model observations

• Invoice unit price for Enterprise SSD Storage is $920.00 versus $850.00 on the purchase order.
• Invoice total is $9,200.00 versus purchase order total of $8,500.00.
• The purchase order states prices are fixed and any price change requires a written amendment before invoicing; no amendment is referenced in the invoice.
• The invoice does not state payment terms explicitly; payment_terms left empty. Invoice date 2026-09-24 and due date 2026-10-24 are 30 days apart.
• Invoice date (2026-09-24) is after the PO requested delivery date (2026-09-20).
• Both documents show tax of $0.00; the PO notes tax-exempt status with certificate on file.

Totals and discrepancies are calculated by Amberd in code from values the model extracted from the source documents. Generated by Amberd (Hackathon Demo).
